

LANGOSTERIA

Cucina

Langosteria Cucina

Inspired by Enrico Buonocore's concept, Langosteria Cucina was established in 2021 to welcome guests by offering them a unique gastronomic journey every night, chosen from the restaurant's menu, created by the chefs. The experience is all centered around the notion of sharing, and alternates Langosteria's time-honored dishes with ever-new concoctions. The menu bears the signature of the Group's most senior chef – Denis Pedron – with the usual collaboration of Corporate Executive Chef Domenico Soranno. The interiors display the hallmark style of Dimorestudio – an intimate and discreet setting, “domestic” yet sophisticated. An ambiance inspired by the design of the 1970s, with Japanese influences. A place to welcome guests and make them feel at home. A special venue for important celebrations as well as informal dinners.
